

¿Qué CONOCERÉ durante el tour?

Chiquimulilla Canal: The Chiquimulilla Canal is an artificial waterway built in 1886 to serve as a communication route between territories. It stretches over 140 kilometers and receives water from rivers such as María Linda, Michatoya, Los Esclavos, Achiguate, and Cojolate.

Mangroves & Los Palos Lagoon: You will enjoy a peaceful boat ride through the mangroves and Los Palos Lagoon—an experience that will connect you with nature and tranquility.

Explore
and enjoy
the magic
of the Santa Rosa
mangroves

Arcas: is a 3-hectare protected beach reserve where you can see animals in captivity and others in recovery, awaiting the right moment to return to their natural habitats. You will see parrots, caimans, freshwater turtles, iguanas, and enjoy a walk through its dry forest.

Olive Ridley Turtles: During release season, you will have the opportunity to participate in the release of Olive Ridley turtles into the sea, a truly unique and meaningful experience.

MANGROVES
& Bocabarra Tour Package
with Accommodation

What is the **MANGROVES** & Bocabarra Tour?

This tour is a boat excursion that first travels through the Mangrove Reserve and Los Palos Lagoon, and then continues along the Chiquimulilla Canal, ending at La Bocabarra. It is a unique experience where you can enjoy birdwatching, observe the native flora of the Chiquimulilla Canal, and witness the spectacular moment where the canal meets the sea.

At the end of the tour, we will visit the ARCAS Natural Reserve in Hawaii, where you can see the wildlife rescued by the center, as well as animals that are in recovery and preparing to be returned to their natural habitats.

During turtle release season, you will have the opportunity to participate in the release of sea turtles into the ocean, a truly unforgettable experience.

The tour lasts approximately 4 hours.
